

Student Testimonials

“Embibe played an important role in my preparation by giving me a variety of practice questions which enhanced my capability of solving questions within time. The quantity of questions was very good and so was the difficulty level. I was provided with different sets of questions after finishing one which raised my confidence level. I thank Embibe for my success.”

”

Shamiksha Das, AIR 20, JEE Main 2019

”

“Embibe’s best feature is the Advanced Test Analysis. It pointed out the exact concepts I was weak in and also the questions I was taking too long to answer. Once the exact areas of improvement were identified, all I had to do was improve in those areas.”

Rohit Gattani, AIR 126, NEET 2018

Embibe’s Reach and Impact

“Embibe’s AI-powered learning platform is helping **19 million students** across **237 cities** in India to learn and transform their performance, regardless of their level of ability, exposure and access. Students who regularly use Embibe to learn, practice and take tests are able to increase their scores by up to **55% over just 10 tests** taken on Embibe.”

Empowering VLEs to Transform the Lives of Students in Every Corner of India

Village Level Entrepreneurs (VLEs), who are an important part of CSC centers, are helping the Government of India to expand and fulfill the Digital India Programme. VLEs are successfully delivering Embibe’s educational services to students located in rural and remote parts of India.

Common Services Centers Scheme (CSC)
Ministry of Electronics & Information Technology
Government of India

Key Features of the CSC Scheme

A self-sustaining network of over 2.5 lakh VLEs in Gram Panchayats

Single delivery platform for a large number of e-services

Standardisation of services and capacity building of VLEs

Localised help desk support for rural beneficiaries

Sustainability of VLEs through maximum commission sharing

Inspiring more women to become VLEs

Helping Students to Fulfil Their Ambitions

Embibe is using the strong network of 2.5 lakh VLEs, spread across 26 states in India, to transform the lives of students located in rural and remote parts of India. Along with providing Embibe's advanced personalised learning products to students at a special price, VLEs also guide students on how to take full advantage of **study, practice and test** on the Embibe platform.

Advanced Feedback Analysis—Helping Students to Get Higher Scores

Embibe's educational products improve students' scores exponentially by giving them a personalised feedback and improvement plan, covering their academic knowledge, test-taking skills and behaviour. This enables students to identify and master their weaknesses and also formulate concrete test-taking strategies.

Personalised Embibe Guide

Students benefit from an Artificial Intelligence (AI) powered personalised mentor that uses insights from a test to improve their test-taking skills.

Overall Performance Analysis

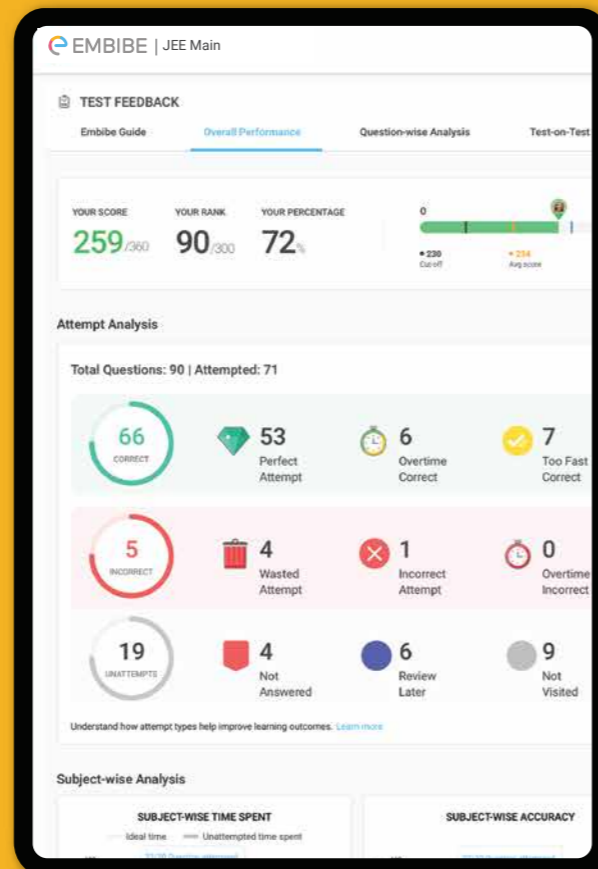

Students can find out which subject they need to focus on more, how to attempt questions perfectly and whether their time-management skills are spot-on.

Question-wise Analysis

Students can identify particular chapters and concepts from a subject that affect their scores the most, along with detailed solution of all the questions they got wrong.

Test-on-Test Analysis

Students can track the progress they have made over tests by measuring their chapter-wise accuracy, time-management skills and other crucial test-taking skills.

Tests Available on Embibe

Students preparing for CBSE 8th-10th or Engineering, Medical, Banking and Railways examinations can strengthen their final preparation by accessing over 800 tests on Embibe.
