

1) What are charts and Different Types of Charts ?

In Microsoft Excel, a chart is often called a graph. ... A chart is a powerful tool that allows you to visually display data in a variety of different chart formats such as **Bar, Column, Pie, Line, Area, Doughnut, Scatter, Surface, or Radar charts**. With Excel, it is easy to create a chart.

2) What are pivot Tables in Excel and their implementations?

A PivotTable is **an interactive way to quickly summarize large amounts of data**. You can use a PivotTable to analyze numerical data in detail, and answer unanticipated questions about your data. A PivotTable is especially designed for: Querying large amounts of data in many user-friendly ways.

3) What is Conditional Formatting? Distinguish 5 types of Conditional Formatting.

Conditional Formatting (CF) is a tool that allows you to apply formats to a cell or range of cells, and have that formatting change depending on the value of the cell or the value of a formula. For example, you **can have a cell appear bold only when the value of the cell is greater than 100**.

There are 5 types of conditional formatting visualizations available:

- Background Color Shading (of cells)
- Foreground Color Shading (of fonts)
- Data Bars.
- Icons (which have 4 different image types)
- Values.

4) How to Clear Formatting in Excel without actually removing the Cell Content?

1. Select the cell or range of cells from which you want to clear formatting.
2. On the Home tab, in the Editing group, click the arrow next to the Clear button.
3. Select the Clear Formats option.
