

COURSE DESCRIPTION: This course is designed to provide students with a comprehensive understanding of the principles and practices of project management. The course covers the entire project lifecycle, from initiation to closure, and includes topics such as project planning, execution, monitoring, and control. Students will learn how to define project goals, develop a project plan, allocate resources, manage risks, and communicate effectively throughout the project. The course also emphasizes the importance of teamwork and collaboration in achieving project success. By the end of the course, students will be equipped with the knowledge and skills necessary to manage projects effectively in various organizational contexts.
