Enabling future workforce to drive innovation through excellence.

About us

Boston Training Academy(BTA) is the vertical of Boston Limited. It offers a structured and highly customized course with a world-class infrastructure of tools and techniques delivered by global experts. BTA also offers consulting services for Artificial Intelligence, Data Science and technology-related topics. Our aim is to become a global leader in technology pedagogy and digital strategies, as well as to provide an all-encompassing platform to drive AI technology innovations and digital transformations through an effective and innovative approach.
