Part 2

Q3. Write a Program to display count, from 5 to 15 using PHP loop as given below.

Q4. Write a program in javascript for Unit Conversion from Kilometer (km) to Centimeter (cm). use of message box is necessary .

Q3 Description:-

Write a program to display count, from 5 to 15 using PHP loop as given below.

Rule & Hint

- You can use "for" or "while" loop
- You can use variable to initialize count
- You can use html tag for line break.

Q4 How to convert kilometer to Centimetre.

Using javascript and HTML we can create an input element that can convert a value from kilometers into centimentral. So for that we use formula
$$\text{centimetre} = \text{kilometer} * 100000.$$
