

NAME: Shabir Ahmed

Reg No = CCA/2021/132933

Course code = 103

Course name = Communication and
Soft Skill.

CCA-103:

Communication and soft skills Assignment-3:

Qno3 Elaborate the process & element of communication in detail through suitable example.

Ans: The elements involved in the communication process are explained below in detail.

Message:- The ~~sender~~ It is the idea information view fact feeling etc. then intended to the communicated further.

Sender:- The Sender and the Communicated generate the message and convey it to the receiver he is the source and the one who starts the communication.

Encoding:- the message generated by the sender is encoded symbolically such as in the form of word, pictures, gestures etc. before it is being conveyed.

Media's It is the term media which is the plural of medium refers to the communication channel. through which we disseminate news, music, movies, education promotional message and other data. It include physical and online newspaper magazine, television, radio, billboard, telephone the internet, fax and billboard.

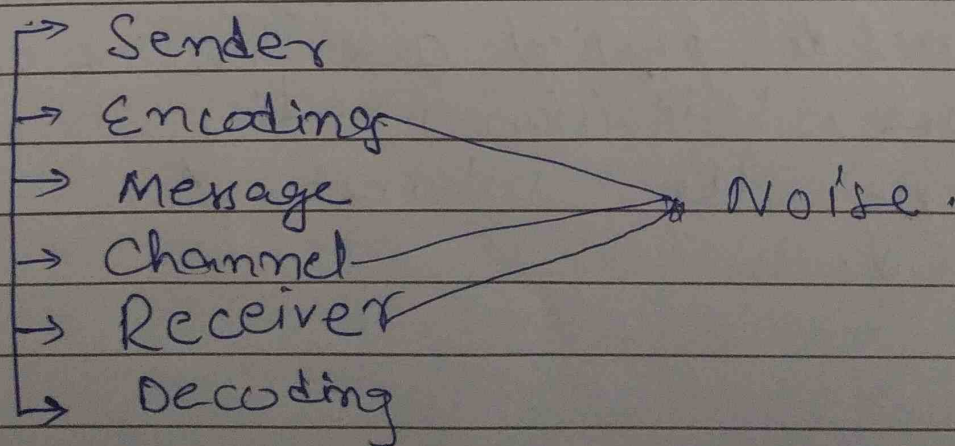

Decoding:- it is the process of converting the symbols encoding by the sender. After decoding the message is received by the receiver.

Receiver:-> He is the person who is left in the chain and for whom the message was sent by the sender. once the receiver receives the message and understands it with proper perspective and adds according to the message only then the purpose of communication is successful.

Feedback:- once the receiver confirms to the sender that he has received the message and understood it the process of communication is complete.

Noise:- it refers to any obstruction that is caused by the sender, message or receiver during the process of communication.

E.g. bad telephone, poor faulty ~~encoding~~ encoding, faulty decoding, inattentive receiver, poor understanding of message due to prejudice or inappropriate guidance.

part 2.

? > </body>
</html>
```

Ques write a program in javascript for
unit conversation from kilometer (km)
to centimeter (cm). use of message box
is necessary?

Ans:-

```
<!DOCTYPE html>
<html>
<title> kilometer to an length  
converter </title>
<body>
<h2> length converter </h2>
<p> type a value in the
```

Kilometer field to convert
the value to cm: C/P>
</P>

```
<label> kilometers </label>
<input id = "input kilometers"
type = "number" placeholder = "kilometers"
value = "kilometers">
<input id = "btn" type = "button"
value = "submit">
onclick = "length converter (input kilo-
meters . value)">
```

C/P>

<script>

```
function length converter (evalum)
```

```
{ alert ("cm: " + evalum * 100000);
}
```

</script>

</body>

</html>
