Get all information on RailYatri best train ticket booking app. - Book your confirmed Indian Railway tickets directly on IRCTC Authorized Partner - RailYatri. PNR STATUS AND LIVE TRAIN STATUS.

A **train ticket** is a [transit pass ticket](#) issued by a **railway operator** that enables the bearer to travel on the operator's network or a partner's network. Tickets can authorize the bearer to travel a set itinerary at a specific time (common for long-distance railroads), a set itinerary at any time (common for [commuter railroads](#)), a set itinerary at multiple times, or an arbitrary itinerary at specific times. The last two categories are often called *passes*: the former is often sold as a discounted block of trips for commuters; the latter is often sold to vacationers, such as European [Eurail](#) passes. In some countries, like Italy, and some [local railways](#) in Germany, conductors are not used. Instead passengers are expected to validate tickets in a special stamping machine before entering the train. A system of coupons that are validated with a special machine exists on the [Mumbai Suburban Railway](#) where combinations of coupons of denominations are used to get the corresponding ticket value.^[1] There may or may not be a conductor later on double-checking that correct tickets are actually held. Yet further systems are possible, for example in Japan, the [London Underground](#) and in local traffic in [Stockholm](#), the platforms are blocked by [turnstiles](#), forcing the acquisition of a ticket before entering the platform. Some train tickets are available with an option to add bus travel at either end of the train ticketed journey, as part of a wider transport network. For instance, the [Plusbus](#) scheme in the United Kingdom offers bus travel on an integrated ticket for an additional fee.^[2] In Germany, most long-distance train tickets include a "city ticket" valid on the public transit system of origin and destination. This is automatically included at no extra charge in all tickets purchased by [BahnCard](#) holders and is indicated on the ticket.

AbhiBus - An ixigo company, is the Official Intercity bus booking partner of state government bus services and private bus tickets to travel across India. It is a book my trip app for the best intercity SETC bus tickets. Volvo, AC, Zingbus, VRL travels, NueGo electric & chalo bus booking app.

A **bus** (contracted from **omnibus**,^[1] with variants **multibus**, **motorbus**, **autobus**, etc.) is a [road vehicle](#) that carries significantly more [passengers](#) than an average [car](#) or [van](#). It is most commonly used in [public transport](#), but is also in use for [charter](#) purposes, or through private ownership. Although the average bus carries between 30 and 100 passengers, some buses have a capacity of up to 300 passengers.^[2] The most common type is the [single-deck rigid bus](#), with [double-decker](#) and [articulated buses](#) carrying larger loads, and [midibuses](#) and [minibuses](#) carrying smaller loads. [Coaches](#) are used for longer-distance services. Many types of buses, such as city transit buses and inter-city coaches, charge a fare. Other types, such as elementary or secondary [school buses](#) or [shuttle buses](#) within a post-secondary education campus, are free. In many jurisdictions, [bus drivers](#) require a special [large vehicle licence](#) above and beyond a regular [driving licence](#).

Buses may be used for [scheduled bus transport](#), [scheduled coach transport](#), [school transport](#), private hire, or [tourism](#); promotional buses may be used for [political campaigns](#) and others are privately operated for a wide range of purposes, including rock and pop band tour vehicles.

[Horse-drawn buses](#) were used from the 1820s, followed by [steam buses](#) in the 1830s, and electric [trolleybuses](#) in 1882. The first [internal combustion engine](#) buses, or motor buses, were used in 1895.^[3] Recently, interest has been growing in [hybrid electric buses](#), [fuel cell buses](#), and [electric buses](#), as well as buses powered by [compressed natural gas](#) or [biodiesel](#). As of the 2010s, [bus manufacturing](#) is increasingly [globalised](#), with the same designs appearing around the world.
