Q.1.1 Use of Computer :->

=> The Computer is very vast field in every sector and every aspect of life They are used at home for online education. entertainment in IT, hospital, Govt sector etc

Q.1.2 About Computer :->

=> A Computer is a machine that can store and process information. Most Computer rely on a binary system which use two units o and 1 to complete task. Such as storing date Calculating algorithm and displaying information

Q.1.3 Basic of Computering

=> • Input unit   • output unit
   • Memory unit   • Control unit
   • Arithmetical   and logical unit

Q.1.4 Various part of Computer - Hardware

=> • Central processing CPU
   • Motherboard
   • Random Access Memory
   • Power supply

- Cooling fan
- Hard drive
- Monitor

Q.1.5 Computer Memory :-

→ Computer memory is a generic term for all of the different type of data storage technology that a computer may use including RAM, ROM, and flash memory.

Q.1.6 Devices of Computer

→
- Keyboard
- Light Pen
- Digitizer

- Mouse
- Track Ball
- Microphone

- Joystick
- Scanner

Q.1.7 Digital Devices :-

→
- Mobile Phone
- Storage Device
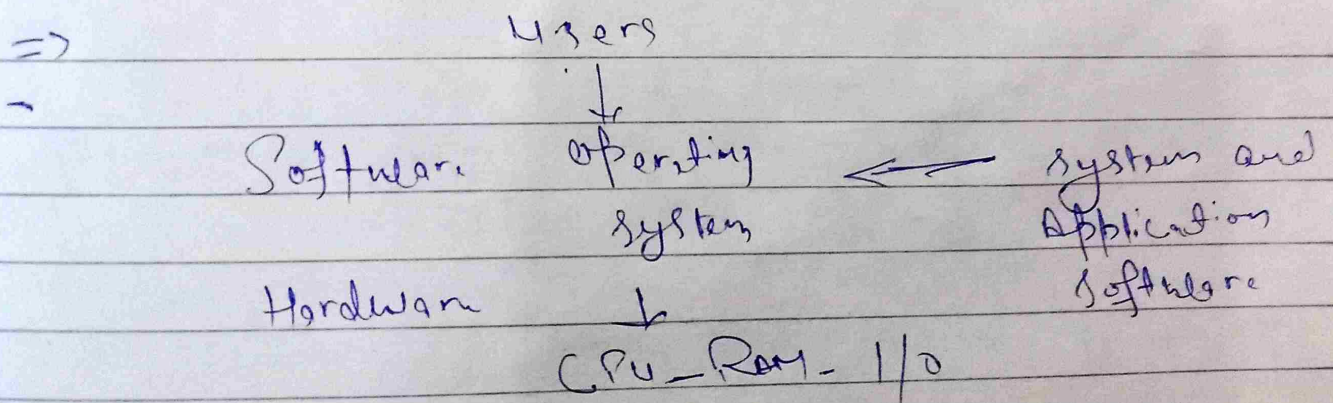

- Tablet Computer

Q.1.8 Mobile Phones and Tablet :-

→ A mobiles device is a portable computing device such as a smartphone or tablet computer. These devices range in size, shape and model and all have

Various operating system (OS) and function.

⇒ ① Open the Google Drive app.
② In the bottom right tapp Add.
③ Tap Scan
④ Take a photo of the doc you'd like to scan.
⑤ Adjust scan area Tap Grab

⇒ Connected externally to devices that help u to function com- pletely
→ All in one system

⇒

```
                     Users
                       ↓
  Software      Operating    ⟵  System and
                 System           Application
                   ↓              Software
  Hardware         ↓
             CPU _ RAM _ I/O
```

⇒ • Memory Management   • Process Management
   • Device Management   CPU Scheduling
   • Security   • File Management
                                • Error detection
