

CCA-101 FUNDAMENTALS OF IT & PROGRAMMING

ASIGNMENT

Q1 : Write a program in C to display your name and address on Computer Screen.

Ans :

```
#include <stdio.h>

void main () {
    printf("\n Ajay Kumar"); // it displays the string
    inside quotation on computer Screen
    printf("\n Common Service Center"); // it displays the string
    inside quotation on computer Screen }
```

Output

Ajay Kumar
Common Service Center

Q2 : Write a program in C to add two integer numbers.

Ans :

```
#include <stdio.h>

void main () { int n1, n2, sum; // it declares three variables
n1, n2 and sum as integers types
printf("Enter two integers numbers :");

scanf("%d %d", &n1, &n2); // it reads two numbers
that are stored in variables n1 and n2 respectively
sum = n1 + n2; // calculating sum
printf("Sum = %d", sum); // it displays that value of sum }
```
