Procedure for generating md5 hash of the application code

Windows OS

1. Create a zip file of the application code's root directory.
2. Run the following command in the CMD:

> *CertUtil -hashfile "path of the zip file" MD5*

Linux Based OS

1. Create a zip file of the application code's root directory.
2. Run the following command in the Terminal:

> *md5sum "path of the zip file"*
